

See even more of Barcelona this summer in the story-telling car

Barcelona's talking, yellow sightseeing cars will be giving visitors a chance to see even more of the famous Catalan city this summer.

The GoCar story-telling cars have doubled the size of their city tour, with more than 800 "trigger points" in the GPS guided audio tour using a combination of directions, information, sound effects and music.

The three-wheeler cars, which launched in Barcelona last year, take a driver and one passenger on a zippy tour of the city's famous landmarks providing clear directions and a running commentary.

"The cars have become a great talking point on the streets of Barcelona and within a year have become a star attraction in their own right. It's definitely the coolest way to explore the city. The tour is now bigger and better, but we've held the price at last year's level. It means visitors and locals get to see more of this amazing city for their money," said GoCar's European Director, Damien Harris.

The advanced navigational capabilities of the Global Positioning System deliver an informative tour, highlighting specific locations throughout Barcelona as you drive.

Prices are 35€ for the first hour, second hour 25€, additional hour 20€ or for a full day 99€ □ □ It is highly recommended to book in advance online at www.gocartours.es or call GoCar on 00 34 93 269 1792

The office is based next to Santa Caterina market, 100m from the main Cathedral on Freixures 23.

Ends □

•GoCar now operates in three European cities – Barcelona, Lisbon and Valencia. They are also in the US in San Francisco, San Diego and Miami.

- To drive a Go Car you just need to be over 18 and hold a driving license
- GoCar's friendly staff take you through a thorough vehicle briefing and then you're ready to go.
