

TRICORONA

Carbon Offset Certificate

This is to certify that

GoCar Tours

has funded the offsetting of 3 859 kg of carbon dioxide

Offsetting occurs through renewable energy projects under the Clean Development Mechanism of the Kyoto Protocol.

All projects are carefully selected by Tricorona Climate Partner according to rigorous sustainability and additionality criteria. The projects are furthermore fully audited by independent third parties in accordance with UN regulations, and are approved by and registered with the CDM Executive Board, under the UN Framework Convention on Climate Change (1990), the Kyoto Protocol (1997) and the Marrakech Accords (2001).
